

NetSuite Senior Architect

Driven by Purpose:

At Prophet One, we believe in holding ourselves to a higher standard. This belief has pushed us to pursue excellence not only for ourselves, but for each one of our clients. We are looking for a dynamic individual who is a cultural add, not just a cultural fit, for our team. Someone whose passion shines in all they do. Someone who looks forward to helping us elevate who we are as they enjoy the excitement of being part of a thriving, value-based company. Let's grow to new heights together

Responsibilities:

- Work on NetSuite related projects including new implementations, enhancements, and other special projects
- Analyze complex business problems and assess how NetSuite can be implemented to solve these
- Support end-to-end solutions: design, develop, test, and deploy NetSuite functionality and enhancements to meet client needs
- Provide technical guidance to the client and Prophet One project team
- Educate internal and external audiences on NetSuite best practices
- Participate in the creation and review of all project documentation
- Create and deliver presentations on product demonstrations, technical concepts, solution design, project work plans, delivery approach, milestones, and results to stakeholders
- Work with business leaders, technology teams and vendors to ensure that key success criteria for the project are met within the overall budget and timelines for the project

Experience Requirements:

- NetSuite ERP Consultant and/or SuiteCloud Developer certification
- 5+ years of direct NetSuite experience
- In depth knowledge of the NetSuite platform, its integration capabilities and data structures
- Proficiency in SuiteScript, SuiteFlow, and/or NetSuite custom reporting

- Demonstrated experience in testing, validation, quality assurance, user acceptance testing, and related disciplines
- Strong knowledge of key financial processes such as Quote to Cash, Procure to Pay, Record to Report, etc.
- Strong problem solving and troubleshooting skills
- Strong data analysis skills
- Excellent interpersonal, presentation, writing and communication skills

Benefits of Working at Prophet One:

- Personal development and promotion opportunities
- Supports the professional development of employees (i.e., NetSuite Certifications).
- Work-life balance
- Competitive salary and benefits package
- Flexible work opportunities including the ability to work remote
- Work with a growing organization and NetSuite Partner comprised on the industries' best
- Ability to make a meaningful impact on the team and organization as a whole; carve yourpath!
